Subject: DMOC - Update

\\~

Colleagues – a quick update on this file. This evening the DM, DMA and I had a meeting with colleagues from Transport Canada, RCMP and Public Safety.

\\~

Key takeaways/point are:

\\~

- Transport Canada will revamp the strategy and provide us with an updated version tomorrow, which we will share with you. The revamped strategy will seek to align with the input provided by our DM:
 - Encourage protesters to leave (via penalties/licence suspension)
 - Use governmental drivers and mechanics (e.g. DND, RCMP, municipal, etc.)
 - Hire mechanics and drivers to move the trucks
 - Hire (or buy) tow trucks to move trucks
 - Use other equipment to move the trucks

\\~

- Assuming the first option/step (encourage) is not sufficient and we need to move to the other options/steps, there was agreement on the need to ensure the sites are secured/safe for removal of equipment

Solicitor-Client Priv.

\\~

- I'm going to try to meet with colleagues from Ontario, Alberta and Manitoba tomorrow to see if we can align on the procurement side (i.e. to make sure we're not all chasing after the same resources/companies)
 - We're also going to explore a unified procurement strategy to try to incentivize companies to provide services (for those that may be reluctant)
 - We may also explore other options (related to insurance)
- The RCMP will also provide us contacts at the city level, and we will follow-up with them to try to align procurement efforts across all levels/jurisdictions

\\~

There are more details (as the discussion went on nearly an hour) but the above are the key points from my perspective.

\\~

Hope everyone has a good evening.

\\~

Lorenzo
